

WELCOME TO VASTO

Delightful and tranquil small tourist town and seaside resort located in the south of Abruzzo, full of history, art, culture, famous for its cooking and wines, lined with splendid beaches.

Smile and relax, while we guide you through the discovery of our city.

*“There are fewer and fewer places left around the European shores of the Mediterranean where **you can bathe in safe, clean water by a quiet beach in front of orchards and vineyards**. Fewer still where such is the volume of traffic that you can pick up your luggage at an international airport just minutes after you have landed. Abruzzo, with mountains to the west, and the Adriatic in the east, is still an unspoilt region of Italy. Abruzzo, with mountains to the west, and the Adriatic in the east, is still an unspoilt region of Italy.*

*Unpretentious as well as unspoilt is **Vasto**, about an hour south of the airport at Pescara. The old town overlooks a long sandy beach, a short walk down the hill from the centre and a clutch of low-rise hotels. A little further up the coast, past the lighthouse at Punta Penna, is another, even quieter, beach, by a nature reserve at Punta Aderci. Here, you can also see trabocchi, curious wooden contraptions used by local fishermen to catch fish, mainly prawns, without getting into the water.”*
